7. This constitutes notification to the interested parties.

ART. 6) ADMISSION TEST AND EVALUATION CRITERIA.

1. The admission test consists of sixty questions with five answer options, from which the candidate must identify only one, discarding incorrect, arbitrary, or less probable conclusions, on the following topics:

- reading skills and knowledge acquired during studies - 4 (four) questions;
- logical reasoning and problems - 5 (five) questions;
- biology - 23 (twenty-three) questions;
- chemistry - 15 (fifteen) questions;
- physics and mathematics - 13 (thirteen) questions;

The topics are selected based on the syllabi in Annex A of Ministerial Decree 1005/2026.

The time allotted for the test is one hundred minutes.

The questions for the admission test, which are identical throughout the country, are prepared by the MUR with the assistance of the CINECA Consortium, which prepares the questions based on the syllabuses in Annex "A" of Ministerial Decree no. 1005/2026 cited in the preamble.

The exam syllabuses are also available on the MUR website.

The evaluation criteria for the admission test are as follows:

- a) 1.5 points for each correct answer;
- b) minus 0.4 (-0.4) points for each incorrect answer;
- c) 0 points for each unanswered question.

2. CINECA, based on the score calculated according to the evaluation criteria indicated above, will draw up a single national ranking list for candidates from EU countries and non-EU countries resident in Italy pursuant to Article 26 of Law No. 189 of 2002, according to the procedures set out in Annex 1 of Ministerial Decree 1005/2026.

3. The ranking list for candidates from non-EU countries residing abroad is established by each of the universities.

In the event of a tie, the following criteria will apply:

3.1 The candidate's score in answering questions related to biology, chemistry, physics, and mathematics, logical reasoning and problem-solving, reading skills, and knowledge acquired during studies will prevail, in descending order;

3.2 Possession, by the registration closing date, of the language certifications listed in Annex 3, as declared by the candidate upon registration for the exam, will prevail. Possession of language certifications required of candidates for the purposes of the procedure referred to in this decree is self-certified and provided pursuant to Article 46 of Presidential Decree No. 445/2000 cited in the preamble. The Administrations involved in this procedure reserve the right, at each stage of the procedure, to verify the veracity of the declaration made by the candidate, in accordance with the applicable legislation. The candidate must therefore provide all the information necessary to allow the appropriate verification. In the event that the documentation submitted by the candidate contains false or misleading statements, without prejudice to the sanctions provided for by the criminal code and specific laws on the matter and the exposure of the declarant to action for damages by interested parties, any enrollment will be cancelled, any benefits granted will be recovered, and any university fees and contributions paid will be withheld;

3.3 In the event of a tie between one or more disabled candidates holding a disability certificate equal to or greater than 66% or disabled candidates with certification pursuant to Law No. 104 of 1992, art. 3, paragraph 3, and one or more candidates not falling within the aforementioned categories, preference will be given to the disabled candidate(s) holding a disability certificate equal to or greater than 66% or disabled candidate(s) with certification pursuant to Law No. 104 of 1992, art. 3, paragraph 3. A disabled candidate with a disability certification of 66% or more, or a disabled candidate with a certification pursuant to Law 104 of 1992, Article 3, paragraph 3, and a medical

certificate, even if not updated due to the limitation of the National Health Service (SSN) activity, who intends to assert this preference in the event of a tie with another candidate not falling within the aforementioned categories, must present to the University where they are "assigned" within the peremptory deadline of 15 (fifteen) days from the assignment, including the first day, the disability certificate of 66% or more or the certification pursuant to Law 104 of 1992, Article 3, paragraph 3, under penalty of exclusion from the national ranking.

If this deadline expires without proof, the undocumented preference cannot be considered.

3.4 Except for the case referred to in point 3), in the event of a further tie, the youngest candidate will prevail.

4. Candidates from EU countries and non-EU countries residing in Italy as per Article 26 of Law No. 189 of 2002 who achieve **a test score of at least 20/90 (twenty out of ninety)** are considered eligible. Ineligible candidates, those who achieved a final score lower than 20/90 (twenty out of ninety), will not be included in the ranking.

5. In accordance with EU guidelines on access to university education for foreign students, in line with the requirements of foreign cultural policy referred to in Article 46 of Presidential Decree No. 394/1999, with reference to the reservation of places reserved for candidates from non-EU countries residing abroad, the minimum eligibility threshold referred to in the previous paragraph does not apply. Candidates referred to in the aforementioned case are eligible only if they obtain **a test score higher than zero (0)**.

6. Candidates from non-EU countries residing abroad who have not provided an answer to any question will not be included in the ranking.

7. The "eligible but unsuccessful" status refers only to the current selection process: it does not confer any right to access the master's degree program in years following the year in which the exam was taken.

ART. 7) ADMISSION TEST: PROCEDURES – CANDIDATES' OBLIGATIONS – SUPERVISION.

1. During the identification procedure, each candidate will be provided with the "Instructions for Completing the Answer Sheet" and a pre-completed personal data sheet. The "Instructions for Completing the Answer Sheet" will be made available to candidates before the test begins.

2. At the time of the test, each candidate is given a package prepared by CINECA on behalf of MUR.

Each package contains:

- a)** The questions relating to the admission test, bearing the package's identification code and two sheets of paper for the rough copy;
- b)** An answer sheet, bearing the same identification code as the package;
- c)** A sheet bearing the package's identification code and the degree program to which the test relates.

Should it become necessary to replace even one of the documents listed in points b) and c) during the test, the entire package will be replaced, as these documents share the same identification code. Any corrections or marks made by the candidate on the personal information sheet do not require its replacement. The personal information sheet will only be replaced if the marks or corrections made by the candidate result in objective difficulty in identifying the candidate. In such a case, the Commission will replace the pre-filled personal data sheet with a blank replacement personal data sheet selected from those provided by CINECA and will record the operation in the examination report. Replacing the personal data sheet does not, under any circumstances, require the replacement of the entire package.

Before the start of the test, the Chair of the Examination Commission or the Classroom Supervisor, either on-site or abroad, draws four students from among the candidates present in the room and checks the integrity of the boxes with them. The Chair then opens the boxes and distributes the packages according to the number of participants. The Chair of the Examination

Commission or the Classroom Supervisor draws up and signs a statement for the above steps, which states:

- 2.1) the integrity of the boxes;
- 2.2) the number of packages assigned;
- 2.3) the number of packages unused, if any;
- 2.4) the number of packages replaced, if any, with the reason for their replacement.
- 2.5) This statement must also be signed by the four students drawn.

On the day of the test, the Chair of the Examination Commission or the Classroom Supervisor will also prepare the examination report, following the format provided by the Ministry of University and Research (MUR).

If one or more candidates report irregularities regarding the package received, the Chair of the Examination Committee or the Head of the Examination Room will verify its accuracy and, if necessary, replace the package. This action must be recorded in the exam minutes, along with the reasons for the action. Replaced packages are not to be considered waste but must be properly stored in accordance with the provisions of Annex 1, No. 11, to Ministerial Decree No. 1005/2026.

Candidates must use only a black, indelible pen provided by this University or the foreign institution to complete the answer sheet.

Candidates mark their chosen answer by placing an X in the corresponding box (drawing diagonal lines in the answer box). Candidates may correct only one answer already given to a question, taking care to completely black out the box previously marked with an X and choose another one. In any case, an X must be marked in only one of the five boxes for the corresponding score to be awarded.

The answer sheet includes, next to the sequential number of each question, a small circular figure that the student must cross out to confirm their intention not to answer. This indication, once entered, cannot be changed; if the candidate does not place a check mark in the answer boxes, even if they do not cross out the circular figure, the answer is still considered not given.

The answer sheet, for the purposes of determining the relevant score, must not include any signature or other identifying mark, under penalty of invalidation of the test.

At the end of the test, each candidate will be asked to go to a dedicated station equipped with a pen, located at an appropriate distance from the examination panel. There, they will find:

- a box for the personal data sheet, with a sample of the personal data sheet on one side;
- pairs of adhesive labels bearing barcodes.

Each candidate must choose a pair of identical adhesive labels from the box and affix one of the two labels to the personal data sheet and the other to the answer sheet. The labels must be affixed solely by the candidate, who must ensure that the alphanumeric codes on the labels of the chosen pair match. The candidate must then sign, at the bottom of the personal data sheet, a declaration confirming the accuracy of the personal data and the correspondence of the codes on the labels applied to the personal data sheet and the answer sheet.

Once these operations are completed, the candidate must insert the personal data sheet into the closed container located at the dedicated station and, subsequently, go to another dedicated station where he or she inserts the answer sheet into a special closed container prepared for this purpose, taking care to place the side of the form containing the answers provided by the candidate inside the aforementioned container, face down.

In addition to the answer sheet and the personal data sheet, the candidate must also submit to the Commission the sheets containing the test questions and the package control sheet.

The Commission Chair or the Classroom supervisor will then:

- close the appropriate containers containing the answer sheets, after counting them, in the presence of the same candidates called to verify the integrity of the boxes or, if they are unable to do so, in the presence of four other candidates drawn at random;
- close the appropriate containers containing the personal data sheets, in the presence of the same candidates called to verify the integrity of the boxes or, in any case, of four other candidates drawn at random;
- sign the labels used to close the containers;
- invite the four students to countersign the same label already signed by the President of the commission.
- prepare additional containers in which the returned packages that have been replaced, the packages from which the personal data sheets were removed, as well as the unused packages, the declaration referred to in this article, and a copy of the examination report, along with the room lists of the candidates, must be counted, enclosed, and sealed;

Candidates are strictly prohibited from keeping with them, during the test, any bags or backpacks, books or notes, paper, personal writing instruments (pens, pencils, etc.), mobile phones, smartphones and any other electronic devices, including smartwatches, handheld devices, tablets, earphones, headsets, webcams and laptop computers of any kind capable of connecting outside the examination rooms via wireless connections or the standard telephone network through UMTS, GPRS or GSM protocols, under penalty of annulment of the test. Accordingly, candidates are prohibited from bringing into the admission test venue mobile phones, smartphones, smartwatches, handheld devices, tablets, earphones, headsets, webcams or any similar devices. Candidates in possession of such devices must deliver them to the staff responsible for identification procedures before entering the examination room or the sector assigned for the test.

It is also forbidden to bring manuals, textbooks, handwritten notes and reference materials or blank sheets of paper. During the test, candidates are not allowed to communicate with one another, either verbally or in writing, nor may they establish contact with any other person, except members of the Commission or the Supervisory Committee, or the technical and administrative staff responsible for supervision.

Any candidate who violates the provisions of this Article will have their exam cancelled by the Commission and will be excluded from the competition.

ART. 8) CAUSES FOR EXAM CANCELLATION.

The exams are subject to cancellation, and the candidate is excluded from the competition if:

1. the candidate takes the exam in an exam room other than the one scheduled, based on the exam room lists, unless such change has been authorized by the Examination Board, as per the relevant exam room minutes;
2. the candidate brings mobile phones, handheld electronic devices, smartphones, smartwatches, or other similar devices, as well as manuals, textbooks, handwritten notes, and reference materials into the exam room, as provided for in Article 7 of this announcement;
3. the answer sheet (both front and back) is signed or marked by the candidate or a member of the Examination Commission;
4. any interaction between the candidates and/or attempts to exchange any material, including the exchange of personal data and/or answer sheets, in the possession of the candidates, is verified.

5. the candidate's use of pens, pencils, or any other writing instrument to make changes, additions, and/or corrections to the answer sheet while inserting the personal data sheet and answer sheet into the designated containers.

The exam is cancelled by the Commission. In the cases referred to in points 1), 2), 3), 4), and 5), CINECA does not determine the score for the cancelled exam.

The exam is also subject to cancellation if the personal data sheet contains deletions and/or erasures or contains information that, at the Commission's sole discretion, does not allow the author of the paper to be identified with certainty.

ART. 9) OBLIGATIONS AND DEADLINES - PUBLICATION OF THE NATIONAL RANKING LIST.

On **October 8, 2026**, CINECA, on behalf of the Ministry of University and Research (MUR), will publish, in the reserved area for candidates and in compliance with personal data protection regulations, on the website www.universitaly.it, only the scores obtained by candidates according to the label code.

This data will remain available until the end of the procedure in the reserved area for candidates.

Starting from the day following the publication of the test results and within 5 working days, the Responsible for Procedure at this University will send CINECA, via a reserved website, the identification data of each student taken from the personal data sheet and the scan of the individual personal data sheets in PDF format. A detailed report of these operations will be prepared, which the universities must make available to the Ministry of Universities and Research on the reserved website.

On **October 19, 2026**, candidates can view their test, score, and personal data sheet in the reserved area of the University portal.

On **October 26, 2026**, the ranking list of candidates from EU and non-EU countries residing in Italy, as per Article 26 of Law No. 189 of 2002, will be published in the reserved area.

For each candidate, it will indicate their score, their ranking position, and the University where they are placed, either as "ASSIGNED" or, taking into account the ranking position of all candidates preceding them and their respective location preferences, as "RESERVED" or as "PENDING". The ranking list of candidates from non-EU countries residing abroad will be published on the same date on the University website, on the [Admissions to Degree Programmes Academic Year 2026/2027](#) page and at the Students' Office for Medicine and Surgery (Naples Site) and Dentistry and Dental Prosthodontics. Such publication constitutes official notification to interested parties.

In relation to the merit ranking list and the number of places available at each University, the names of candidates who have been designated as ASSIGNED or RESERVED for the degree programme and the institution indicated as their highest available preference will also be published, and each University will be provided with the list of such candidates.

Any candidate who, with each ranking update:

a) falls within the available places for their first available preference, is considered ASSIGNED and is required to enroll at the location and course to which they are ASSIGNED, within the deadlines established in point 10, letter b) of Annex 2 of Ministerial Decree 1005/2026 **(within a maximum of 4 days, including the day of publication of the ranking or the ranking update, excluding Saturdays and holidays)**. Failure to comply with the deadlines will result in the candidate forfeiting their right to enroll, and the reason for the delay will be irrelevant (failure to enroll within the deadlines for those assigned to the ranking will result in their renunciation of the ranking);

b) does not fall within the available places for their first available preference, is considered RESERVED for a subsequent choice. In this case, the candidate may still enroll at the location and course to which they are RESERVED within the deadlines established in point 10, letter b)

of Annex 2 of Ministerial Decree 1005/2026 (**within a maximum of 4 days, including the day of publication of the ranking or the ranking update, excluding Saturdays and holidays**), or wait for places to become available for the best preferences indicated, once the previous candidates in the ranking have completed their enrollment. If the RESERVED candidate enrolls, all other preferences expressed will automatically be cancelled.

Within 5 days of the publication of the ranking list and the publication of any subsequent updates, and in any case **no later than 12:00 noon** on the fifth day following the aforementioned publications, excluding Saturdays and holidays, each University, via its own dedicated website, will communicate the names of enrolled students to CINECA.

Within 5 days of the publication of the ranking list and the publication of any subsequent updates, and in any case **no later than 12:00 noon** on the fifth day following the aforementioned publications, excluding Saturdays and holidays, ALL CANDIDATES, with the exception of those who have already enrolled, those who have withdrawn from the offered enrollment, and candidates with "sold out" status, must confirm their interest in enrolling in the dedicated area of the University website. Failure to confirm their interest will result in the candidate being removed from the national rankings in which they are included and will not retain any right to enrollment.

The justification for not confirming interest is irrelevant, as this brief online procedure can be delegated to a trusted third party within the five-day period allowed for the confirmation process.

On **November 3, 2026**, CINECA will publish the new ranking list, based on the merit ranking and preferences expressed, using the procedures indicated above. Subsequent ranking list updates will follow the procedures and timelines indicated above.
